Experience

GE Aerospace, Cincinnati, OH | www.geaviation.com
Sr. UX Designer: November 2018 - Present
• Lead (alongside a UX Researcher and a Product Owner) the architecture and research plan for a potential new product that would combine three old applications into one new, streamlined application
• Lead the design of a repair shop certification application, allowing repair shops to request the ability to perform specific repair on engine parts
• Lead the design of an application allowing engineers to assign engine parts to themselves and others to facilitate better tracking of parts across various applications
• Acted as a mentor to design interns and recent design graduates starting their careers

Winsupply, Dayton, OH | www.winsupplyinc.com
UX/UI Designer: February 2017 - November 2018
• Lead the redesign of a purchase order application that originally existed as a green screen mainframe application, modernizing it into a web-based angular application
• Lead (with the assistance of the rest of the design team) the creation of a new design system to be used in the design of every application being created
• Created and ran remote usability tests and user interviews across various projects

Fifth Third Bank, Cincinnati, OH | www.53.com
Contract UX/Web Designer: September 2015 - June 2016
• Defined the UX direction for an automated business rules application
• Provided UX and Agile knowledge to help the team start to move in a
  direction focused more on user centered design and agile methods

Top Gun Sales Performance, Cincinnati, OH | www.topgunhq.com
Web Designer: May 2013 - September 2015
• Lead the design of a learning management system targeting salespeople
  looking to learn how to improve in sales
• Lead the design of internal data and status screens for internal network
  operations center, used to monitor media players for digital signage
• Created motion graphics animations for company marketing videos

Hobsons, Cincinnati, OH | www.hobsons.com
End User Experience Specialist: June 2010 - May 2013
• Created branded instances of Hobsons' college enrollment software for
  colleges in the US and UK
• Provided design and branding requirements for an applications for
  potential students to learn about upcoming events at colleges of interest
